Specialty Tag & Label, Inc.
IDENTIFICATION SOLUTIONS FOR HORTICULTURE
Flowery Branch, GA
(800) 475-2040

HELLO AND WELCOME
to the third edition of the Specialty Tag & Label Catalog!

Here at Specialty Tag & Label, Inc. we strive to bring quality products at competitive prices supported with the highest level of service in the business. We have shipped orders same day since our inception in 1997! That concept only works if you have products on the shelf.

When we kick off 2021, every inch of our 6,000 square foot high bay facility will be stocked with all of your favorite identification products for horticulture. This will include select items from our rapidly growing RFID division! Our fleet of high performance thermal printers can print on plastics that range from 10 mil slip-on tags to 23 mil thick pot tags. So, flip through the 2021 catalog of our product line and find the solution you need. And relax! You've got this!

Your Specialty Tag & Label Team

INDEX

STEALTH

EASY AND COMPACT

With thousands of satisfied customers, the Stealth Thermal Printer is a customer favorite. It is the frugal choice for anyone just starting out, but it is also great for those well established that need an additional print station to assist with workflow. This easy and compact printer is the right choice at the right price!

VERSATILITY MEETS PERFORMANCE!

From the same proven manufacturer that brought us the Stealth Printer, which has dominated the horticultural industry for 10 years, Specialty Tag & Label proudly presents the Raptor.

This revolutionary 6-inch printer can print thick 20 mil pot tags at a resolution of 203 DPI at speeds up to 12 inches per second. Unlike its smaller brother, the Stealth, the Raptor does not require a separate external media stand. The Raptor will hold full size rolls of tags, labels and signs.

Raptor Printer Features
• Ethernet, USB, Serial, and Parallel ports
  are standard
• 4.3" color LCD with 6-button menu
  and touch panel operation
• Die-cast aluminum frame/metal cover
  with large clear media view window
• Print over 16,000 Inches per Ribbon
• 2 year Limited Warranty
• Horticulture-grade print head for
  printing plastic

Software Options
• Bartender Ultra Lite design software

FALCON

Spread your wings...

Soar through your printing needs with the Falcon Thermal Printer. When it comes to your max tag size, the sky is the limit! This industrial printer is the first to market with an 8.6 inch printing capability and a max media width of 10 inches, which leaves you with just one question. Are you scared of heights?

Falcon Printer Features
• Ethernet, USB, Serial, and Parallel ports are standard
• 3.2" color touchscreen facilitates intuitive navigation. Adjustable to 15°.
• Dual-Colored status LEDs and calibration button for simplicity.
• Robust metal casing and a solid print mechanism to take on heavy duty jobs
• Outstanding breadth: max label width 10"/ Max print width 8.64".
• 4 Inches per second print speed
• Optional wireless connectivity: Bluetooth or Wi-Fi models available
• A sturdy external label stand for up to 10" roll diameters included.
• Adjustable media detectors: including reflective and see-through sensors
• Advanced adaptive dampening technology to optimize print quality
• Internal Media Pressure plate is designed to stabilize the label printing process
• 23 Mil Media Thickness
• Print over 11,800 Inches per Ribbon

Software Options
• Taggit Pro or Bartender Pro

THUNDER BOLT

LIGHTNING FAST!

If speed is what you need, the Thunderbolt is your solution. With lightning fast printing, this industrial printer will get the job done and quick. Ironically, this Toshiba printer uses less than 9W in stand-by making this printer qualify for the Energy Star Program. With the patented near edge printhead technology in the Thunderbolt, you will find proven longevity to print on thick plastics like those found in our catalog.

Thunderbolt Printer Features
• Ethernet and USB ports are standard
• The unique intuitive graphical LCD 'helpdesk' display improves usability and prompts the user to take immediate corrective action where necessary
• 4.3" color LCD with 6-button menu and touch panel operation
• 2 year Limited Warranty
• Near-edge printhead for printing plastic
• Consumes less than 9W in stand-by, this ecological industrial printer that qualifies for an Energy Star program
• 305 DPI
• 14 Inches per Second
• 4 Inch Print Head
• 4.7 Inch Media Width and 23 Mil Media Thickness
• Print over 23,600 Inches per Ribbon
• RFID Option

SATO

Meeting Demands

TXPEX6 Thermal Printer

The TXPEX6 is the latest addition to SATO's Horticulture printer line. Designed for the most demanding printing applications, the TXPEX6 easily handles material thicknesses up to 25 mil at speeds up to 12 inches per second. The TXPEX6 is available with a 6-inch (305 dpi) print head and can print tag widths up to 10 inches ladder style (sideways). This print orientation promotes faster throughput and maximizes ribbon usage.

TECEX6M Thermal Printer

The TECEX6M printer is ideal for tags, labels and signs up to 6 inches wide. Utilizing the End-To-End Slip-On® tags, various pot tags, and pressure sensitive signs, makes this the most versatile and cost-effective printer in the Horticulture market. The TECEX6M is available with a 6-inch (305 dpi) print head and can handle material thickness up to 25 mil at speeds up to 12 inches per second.

EX6 Printer Features
• The EX6 comes standard with USB 2.0, LAN 10/100 Base, IPv6 and USB Host/ RTC interfaces.
• Near-edge printhead for printing plastic
• RFID is an available option.

Software Options
• Taggit Pro or Bartender Pro

Nice Label Pro

Get started and finished with label design today. The NiceLabel designer delivers a familiar Microsoft Word-like user experience. This means anyone can quickly design professional labels without previous knowledge of barcoding or designer training.

Print accurately and consistently without printing errors. Printing labels with dynamic data is different from printing other types of documents. The labeling system needs to enable production and warehouse staff to print quickly and without errors. NiceLabel comes with an all-in-one printing form that helps users print accurate labels without the risk of error.
- Keyless
- Microsoft Ready
- Batch Printing
- Utilizes True Type fonts, bar codes, present formats for all our label and graphics capabilities
- Free phone support 800-858-7425

Taggit ® Pro Labeling Design Software and Database

Whether you need to print bar codes, text, graphic images, or from a database, Taggit Pro has the features to help you design and print tags & labels with ease.

- Keyless
- Microsoft Ready
- Batch Printing
- Full Featured database construction capabilities
- Utilizes True Type Fonts, bar codes, present formats for all our label and graphics capabilities
- Includes plant database designed by SATO with over 400 records.
  This includes Annuals, Perennials, Trees and Broadleaf Shrubs, but it is editable and you can add additional varieties and information.
- Free phone support 800-858-7425

Taggit® Pro GOLD Labeling Design Software and Database: All the features and benefits of Taggit Pro with added RFID Functionality

BarTender® Pro Labeling Design Software

Ideal for departments and small businesses, the BarTender Professional Edition offers the same easy interface as the Ultra Lite, includes RFID encoding, and enables you to leverage content from databases, spreadsheets and other files for sophisticated label and card designs.

- Keyless
- Microsoft Ready
- Batch Printing
- Full Featured database construction capabilities with Bartender Data Builder
- Utilizes True Type Fonts, bar codes, present formats for all our label and graphics capabilities
- Encode RFID and Magnetic stripes
- Free phone support in the first year 800-758-2001
- Reseller Tech Support and continued manufacturer email and chat support after 12 months
  email: techsupport@seagullscientific.com

Additional features available with Automation and Enterprise editions

Manufacturers do not allow returns on activated software. Therefore, we encourage you to take advantage of the 30-day trial. Specialty Tag recommends these software packages with these printers. For tech support please call 1-800-475-2040.

Free 30 day trial downloads are available for each label design software package on our website at www.SpecialtyTag.com.

We are happy to provide tech support to our current customers using our software, ribbons and media!

Arbré Technologies Starter Kits

Specialty Tag & Label has partnered with Arbré Technologies to bring the effectiveness of their inventory solution to your business. This system has been proven time and again to save businesses just like yours time and resources which delivers an incredible return on your investment with their stable, proven, "battle-tested" RFID Solutions.

Because "seeing is believing." We offer Starter Kits that let you try the integrated RFID solution for 30 days with minimal investment.

You purchase a minimum of RFID tags, readers and antennas to properly address your application, intended use, and desired results. Your vendors serve up each key component.

Don't know what to order to equip your business? Our RFID experts can guide you through the ordering process.

During the 30-day period you can use all the Arbré software modules for free!

You will receive four to six one-hour training sessions with an Arbré technician during the 30-day period — at your pace. Your other key vendors will provide collaborative training and support.

WHAT IS RFID?
RFID stands for Radio Frequency Identification, which is an automatic way to collect product or asset data quickly and easily.

HOW DOES IT WORK?
A RFID system comprises of a reader (or interrogator), its associated antenna, and the transponders (labels or tags) that carry the data. The reader transmits a low-power radio signal, through its antenna. The tag receives that signal with its own antenna to power an integrated circuit (chip). Using the energy it gets from the signal when it enters the radio field, the tag will briefly converse with the reader for verification and the exchange of data (or the Electronic Product Code). Once that EPC data is received by the reader, it can be sent to a controlling computer, local server, or cloud-based database for processing and management.

Call us for a cost analysis and to see how your company could benefit from an RFID solution.

POT TAGS   page 16-17

Also referred to as "Pot Stakes" or "Stick Tags" these sturdy plastic tags stick right into the soil. Available in 3 different thermal printer compatible materials.
SLIP ON TAGS   page 18-19

Also referred to as "Wrap Around Tags" or "Strap Tags" these tags loop around a limb or a branch. Available with or without a tear off on the end. Available in vertical or horizontal feed.
HANG TAGS   page 20-21

Also referred to as a "Basket Tag," these tags lock onto a hanging basket or limb. Available in the heavy plastic (PX) material or the flexible thermal (TX, TT) material.
PRESSURE SENSITIVE LABELS   page 22-24

Also referred to as "Stickers," these labels are perfect for trays and pots. Available in white or with big box retail borders. Clear and Block-out labels are available to complete your custom printed picture tags.
SIGNS   page 25-26

Perfect to identify sections, varieties, sales and more. Available blank, with headers or with classification. We have your signage needs covered.
UV PEN POT TAGS

The UV Pen Pot Tags are a versatile and durable Styrene material that is easily written on using paint pens, marking pens and pencils. We recommend using the IDentiPen for all weather conditions.

Our Story

Twenty-four years ago, Specialty Tag & Label, Inc. partnered with then Economy Label which is now Sato Labeling. This strong partnership has nurtured the experience, the knowledge and the service you have come to expect from us. Over the years we have partnered with supportive companies that enhance our product line and provide you, our customer, with the highest quality and the widest selection of identification solutions.

Today, we continue to cultivate partnerships with leading manufacturers that equip us with solutions that work for our customers. Our strategic partnerships with SATO and TSC ensure the most innovative, reliable and economical printer options for your specific needs. Our partner IIMAK is a global developer and manufacturer of a wide selection of high quality thermal ribbons for a variety of applications.

Complimentary to the horticultural foundation we have established, our partnerships with Presco and Parker Davis round out our product line to provide our customers with identification solutions that work.

Our latest and most exciting partnership has been with Arbré Technologies. With extensive collaboration we have become RFID pioneers of the horticulture industry frontier. The first of our kind to offer a complete RFID inventory tracking system!

Our Story is Your Story

Our strong partnerships with leading manufacturers make us a strong partner to have for your business. Partner with us, and let's grow something together!
